

Logitech QuickCam® Orbit™

Features: PC • Mac • USB • Microphone •
Digital Zoom • Pro Editing Software •
Automatic Face-Tracking • Mechanical
Pan & Tilt

You've never seen anything like the unique combination of form and function of the QuickCam Orbit. It features a black, ball-shaped camera that sits atop a nine-inch-high stand at your eye level. Why? So that you'll get optimal face time during your video calls or video instant messaging (IM) sessions.

And when you move, it actually follows you around! The QuickCam Orbit mechanically and automatically turns left and right for almost a 180-degree horizontal view or up and down for almost 90 degree top-to-bottom view. So your smiling face will always stay in the picture.

- Add live video to your favorite instant messenger: MSN® Messenger, AOL® Instant Messenger™ (AIM®), Yahoo!® Messenger, and Windows® Messenger
 - Make live video calls using the built-in microphone
 - Always stay in the frame thanks to the automatic face-tracking software and mechanical pan and tilt feature
 - Record high quality videos at true 640 x 480 resolution with the high-quality CCD sensor
 - Get closer with the digital zoom
 - Capture 1.3 megapixel* photos
 - Send a video e-mail with one click
 - Set up a webcam to update images to your website
 - Works with both USB 2.0 and 1.1
- * Software interpolated
